When the time comes for you to sell, there is one obvious choice—Bowers and Merena Galleries. Further, of the five most valuable United States coin collections ever to cross the auction block, we catalogued and sold four.

Whether your collection is worth several thousand dollars or several million dollars, we look forward to working with you. We offer an unequalled record of success, award-winning Grand Format™ catalogues prepared by some of the world's best known numismatic professionals, and the showcasing of your collection to our world-wide mailing list.

Right now we are planning our next several sales and invite you to participate. Call John Pack, Director of Auctions, or Q. David Bowers, President, at 1-800-458-4646 and we will set you on the road to cashing a very generous settlement check. We can even provide a cash advance if you desire. There is no obligation, only the opportunity to sell your rare coins, or your complete collection for the very best market price.

Let our success be your success as well. The same team who offered the collections listed here will present your coins to buyers who have set numerous world record prices in the past. Contacting us may be the most financially rewarding decision you have ever made. Call today!

**The King of Cash buys it all**—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say: *This is just a note to say "thank you" for the prompt*

*attention, courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.*

*I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.*

*I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.*

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

## USING YOUR 2001 NUMISMATIC DEALER DIRECTORY

Your **2001 NDD** provides two ways to look-up coin dealers. The first section is a cross-referenced, alphabetical listing by last name or company name (CAPITALIZED listings). Personal names are followed by their state & company name. When the company name is the same as the numismatist's name, you will be able to locate them either way. For example, Julian M. Leidman will have two cross-references: 1) Under **J**, look for "JULIAN M. LEIDMAN" to find the company name, state, & telephone number; and 2) Under **L**, "Leidman, Julian M., MD, Julian M. Leidman" gives you his personal name, his state, his company name, and telephone number.

The second section is arranged by state, and therein alphabetically by *company* name (names such as *I-A Coin Co.* or *A&B Coin Co.* start each new state). If you know the state & *company* name, those listings contain the full mailing address and telephone numbers. When an individual's name is also the company name, **keep in mind that the listing will be alphabetical using the first name**. For example, the address of the *company* "Julian M. Leidman" can be found in Maryland under the first letter "**J**". Within the second section, we have highlighted our advertisers with blue ink. We encourage you to read all advertisements; they contain important information, and this directory would not be possible without their support. These leading dealers are sure that this directory will be one of your most useful numismatic tools. The advertising index will direct you to the various advertising categories. The cross-references in red ink will direct you to advertisements under related categories.

We hope that you find the **2001 Numismatic Dealer Directory** to be a useful tool throughout the year. And please don't forget to send in any updated information as soon as possible. If you do not refresh your information, you may be deleted from future issues. Also, please delete any persons no longer employed by your company.

### PUBLISHER'S STATEMENT OF COPYRIGHT & LIMITATION OF LIABILITY

Reproduction of any part of the **2001 Numismatic Dealer Directory** without written permission of the **Coin Dealer Newsletter** is a violation of copyright law and is specifically prohibited. The **CDN** will strictly respond to any and all violations of the **CDN** copyright.

Every precaution has been taken to avoid errors and omissions in the **2001 Numismatic Dealer Directory**, both in the directory listings and in the display advertisements. The **Coin Dealer Newsletter** expressly rejects any liability for errors in the listings due to incomplete, inaccurate, or omitted information. If you do not refresh your information by responding to our mailings, you may be deleted from future issues. The **2001 NDD** listings have been updated to the best of our ability based upon your returned cards, plus the most recent public data available. If your name was removed from the **2001 NDD**, you will need to submit a listing request form (found in the directory) to be reinstated in the database. If any listing is incorrect, please notify us as soon as possible so that we can update our files. This will also help you — should we receive an inquiry, we can provide the corrected information. Please send us one of the listing request forms whenever your information changes — and remember that many new telephone Area Codes are being created.

Every precaution has also been taken to correctly include all display advertising. Should any error have occurred, an advertiser is limited in recovering for any loss or omission to a pro-rata abatement of the charge paid for such advertising in the proportion that the error reduces the value of the entire advertisement. In no event shall such recovery exceed the amount paid to the **Coin Dealer Newsletter**. An advertiser can substantially avoid the risk of errors or omissions by submitting camera-ready copy, which we encourage for all display advertising.

**Note to consumers:** The **2001 Numismatic Dealer Directory** has been prepared for the dealer community. As consumers, only you can decide what services or products best meet your needs. The inclusion of any dealer, either in the listings or advertisements, is **not** an endorsement of the individuals concerned, their companies, business practices, services, or products. Furthermore, you should be aware that advertisers are subject to various local, state, and federal laws and regulations; the enforcement of such laws and regulations is the responsibility of the appropriate agencies.

## **The Coin Collector's Survival Manual – Fourth Edition** by Scott A. Travers

**BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$18.95.**

"This is the book about the coin business you can't afford to be without." - **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

### **UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER**

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the fourth edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer

- **How not to get ripped off if you buy coins through the mail or over the Internet**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and safe—as well as the right storage method
- A review of some Internet web sites, with a legal analysis
- Requirements of the FTC telemarketing act
- The real facts behind the toning corrosion controversy

NEW information in the fourth edition:

- **Courageous information about on-line auctions—no other numismatic author has ever been as bold in exposing Internet scams!**
- A comparison of PCGS versus NGC—which service does the market really favor?
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins and much, much more!**

**Order your copy of *The Coin Collector's Survival Manual - Fourth Edition*. 284 pages, dozens of sharp illustrations. (black & white and full color). For the price of \$18.95, you can make a mint.**

## How Did Smythe Get Double and Triple Greysheet for Many of the Certified & Uncertified Coins in Our November Sale?

The following 16 coins are highlights from R.M. Smythe's November 17, 2001 auction held at the Algonquin Hotel in New York City. The "Nebraska Part IV" (along with other major consignments) set numerous records as bids were often shouted from the auction room floor. Phone bids that came from as far as California were also executed during the 8-hour, 1,070-lot sale.

**HOW DID WE DO IT?** It wasn't easy. We carefully catalogued every coin, illustrated the feature items using digital photography, and showed the lots in New York. We made the dealers and collectors who came to the auction feel right at home, and we provided telephone bidding for those who couldn't be there in person. Our buyer's charge is still just 10%.

# M. Louis Teller's first choice for a certification company? It's NGC.

*Highlights of M. Louis Teller's  
purchases at the Renaissance  
Auction, all certified by NGC.*

*"It's an honor to have purchased the Tolstoi example of the Reichel Pattern Rouble of 1845, one of the most important and prestigious coins in Russian numismatics and one of the world's premier rarities.*

*"I consider it a personal obligation to the international coin collecting community that this coin be accurately and expertly authenticated and certified. That's why I chose NGC and their world coin authority Ken Krahn to certify the Reichel Rouble and the other seven ultra-rarities that I acquired at the Renaissance Auctions sale. NGC has proven over the years that their expertise is head and shoulders above the rest."*

**M. Louis Teller**

*The Tolstoi example of the Reichel Pattern Rouble of 1845. Designed by Reichel and struck on a Droz coin press. The Tsar rejected the design so no more pieces were struck and the design was not used for any other denomination. Reichel, a State Counsellor and medallist attached to the Russian mint, was a founding member of the Archaeological and Numismatic Society in 1846. Four specimens are known, one in the Hermitage Museum in St. Petersburg, one in the Smithsonian collection, one in the Gotthard Minus collection, and this specimen is believed to be from the Tolstoi collection.*

## The PCI Capsule...

✓ \$8<sup>00</sup> PER COIN

✓ 6-DAY SERVICE

Tells why more people  
are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8<sup>00</sup> per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

**A**fter our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

**B**eneath the claims and the special offers, a grading service has to perform day in and day out with a level of expertise that few possess, in order to truly deserve your business.

## Expertise is essential.

A grade you can trust comes from years of proven accuracy and consistency. This is achieved only by employing the right people. We believe that the finest graders in the coin industry are presently working for NGC.

## Expertise establishes trust.

Another trait of a top grading service is the expertise to recognize and reject "No Grade" coins. Our diligence in this area is unsurpassed, thanks to the millions of coins we've seen over the years.

## Expertise is proven through CrossOvers.

With the exception of one service (with whom we share a roughly equivalent CrossOver rate), other services fall short of the NGC standard 90% of the time.

## Trust in the Official Grading Service of the ANA.

Only one grading company is the Official Grading Service of the American Numismatic Association, and that's NGC. Look at NGC's long association with the ANA and you'll see a track record of successful cooperation to build the strength of the hobby.

## Expertise is proven in Error coins and Varieties.

Coins sent to NGC for error and variety attribution are attributed, graded, encapsulated and quality control checked quickly and expertly all within our high-security facility. It's why we grade more errors and varieties than anyone else.

## Expertise is proven in results.

NGC is proud of its quarterly U.S. and twice-yearly World Census Report. They're not only a valuable reference for the coin hobby, but serve as a record of our achievement in grading over 5 million coins.

## Trust in a proven guarantee of grade.

At NGC, our guarantee is real. And, it's used. Now while you may be surprised to hear us say so, we're proud to acknowledge that grading is an art, not a science. Ask around to see if other services honor and abide by their published guarantees, or for that matter, if they even have one.

## Careful screening of member dealers is important.

We insist our member dealers be known for integrity, years of experience, sound business practices, and have reliable references. Unfortunately, padding these numbers has become fashionable. But member dealers admitted with no standards are about as good as no member dealers at all.

## Expertise & consistency drive numbers.

At NGC, when we say that we graded 45,000 coins in a month, that includes only those coins that were actually encapsulated. We do not "pad" our numbers by including the 20,000+ pre-screened coins we reviewed that were never actually holdered.

Even if you only get coins certified occasionally, it is imperative you can trust the service doing the grading. The grade on the holder does not stand alone. It must match the grade of the coin in the holder.

Your expectations should be high. At NGC we welcome you to take a close look at the commitment we have to serving the hobby, and you, as a top grading service.

## The Greensheet

The *Currency Dealer Newsletter* covers dealer-to-dealer Bid/Ask prices on U.S. fractional currency, large size U.S. notes, small size U.S. notes, uncut sheets, small size currency as well as in-depth articles and analyses. This monthly publication is the only up-to-date pricing guide available in today's ever-changing Paper Money market.

An important note about all of our Newsletters: The publishers of these price guides do not buy, sell or trade coins. In short, there are no persuasive forces that might distort the true market pictures.

# The Coin Dealer Newsletter

has been serving dealers for (please check):

\_\_\_\_\_ 39 Years

\_\_\_\_\_ 26 Years

\_\_\_\_\_ 10 Years

If you checked all three choices, you are correct. The *Greysheet*, as most numismatists know, was started in 1963, and has been the market's leading (and only!) source of current, wholesale pricing information since then. Over the decades, the listings have been tremendously expanded and improved to provide subscribers with the most *accurate* market information that money can buy.

But the *Greysheet* is more than just the *weekly CDN*. The *CDN Monthly Supplement* has been an important part of our subscription package since 1976, with its monthly listings of so many important series by date. And starting in 1992, the *CDN Quarterly* now brings *CDN* subscribers full date, multiple-grade listings on every regular issue U.S. coin not already covered in the weekly and monthly issues. Imagine, every U.S. coin now receives our *independent, unbiased* attention, all so that you can make informed buying and selling decisions.

# DO IT FOR THE MONEY!

The most money. The quickest money.  
The direct from The King of Cash to you money!

SEE US AT ALL  
Major Shows

**T**he customers of The King of Cash are having an other record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

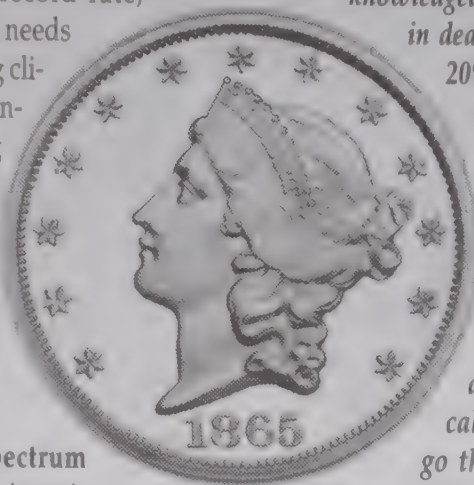

**Same day funds**—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

**Numismatic expertise**—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

**Financial stability**—Spectrum has unlimited funds available for purchasing rare coins. In fact, one of the largest transactions in the history of numismatics was purchased by Spectrum for cash.

**The King of Cash buys it all**—Our purchases include coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say: *This is just a note to say "thank you" for the prompt*

*attention, courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.*

*I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.*

*I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.*

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.
